“FIFA 22 introduces players’ physical movement on the pitch, and captures how physical players interact with each other on the pitch,” said Alex French, Studio Director at DICE. “We’ve iterated and improved the physics across all 32 players and all 16 teams, including new updates to Sprint, Acceleration, Braking and Turning. We’re also introducing the hyper-realistic HyperMotion Technology, giving players a glimpse of the match as it unfolds in the world.”

FIFA Ultimate Team FIFA Ultimate Team mode is now available in FIFA 22. This mode offers you the opportunity to freely create your dream Ultimate Team (UT) and dominate your friends in online and offline games. The game provides multiple ways for you to manage and organize your team, including Ability Packs, where you can equip the right players for your specific team, Progress Packs and the new Legend Draft.
